

GROWING ALOES IN WARM CLIMATES

Brought to you by subTropical Gardening – www.stgmagazine.com.au &
Cactus and Succulent Society of Qld – <http://homepage.powerup.com.au/~cssq/>

Climate: **DT** - Dry Topics | **WT** - Wet Tropics | **S** - Subtropics | **A** - Arid | **W** - Warm Temperature

Name	Climate					Size / Form	Flower Season	Flower Colour	Leaf colour
	DT	WT	S	A	W				
<i>Aloe aculeata</i>	•		•	•	•	50–75cm, single rosette	June/July	Orange to red hot poker	Green or Greyish – strong thorns all over
<i>Aloe acutissima</i>	•	•	•	•	•	0.5m, shrubby plant	June/July	Pink to red	Grey to pink recurved
<i>Aloe adigratana</i>	•	•	•	•	•	50-75cm, clumping rosettes	June/July	Pink to orange	Green with white spotting
<i>Aloe albiflora</i>	•	•	•		•	Small, plant filler	April	White	Green and white spotted
<i>Aloe alooides</i>	•	•	•	•	•	Single stemmed, tall to 3m, longest recurving leaves halfway to ground	June/July	Magnificent long yellow spikes about 60cm long	Long recurved bright green leaves
<i>Aloe andongensis</i>	•	•	•		•	0.5m, shrubby plant	June/July	Orange	Lime green spotted
<i>Aloe arborescens</i>	•	•	•	•	•	2-3m, shrubby plant	June/July	Red or yellow stalks	Yellowish green
<i>Aloe aristata</i>	•	•	•	•	•	25cm, plant filler	May	Orange	Dark green with pronounced white tubercles
<i>Aloe austroarabica</i>	•	•	•	•	•	50-80cm, solitary rosette	June/July	Red	Grey-green with faint white spotting
<i>Aloe barberae</i>	•	•	•		•	Tree to 10m	May/June	Salmon pink	Olive green with pink margins
<i>Aloe bellatula</i>	•	•	•		•	Grass-like, plant filler	All year round	Pinkish	Grass-like, white spots
<i>Aloe brevifolia</i>	•		•	•	•	30cm, mat forming rosette	October	Orange to pink	Green very dense leaves
<i>Aloe bussei</i>	•	•	•	•	•	50cm rosette, will form clumps	June/July	Pinkish	Red in winter
<i>Aloe cameronii</i>	•		•	•	•	0.5m, shrubby plant	June/July	Scarlet	Red in winter
<i>Aloe canarina</i>	•	•	•	•	•	50-75cm, single rosette	June/July	Orange to yellow	Grey leaves with reddish tinge in summer
<i>Aloe capitata</i>	•		•	•	•	50-75cm, single rosette	June/July	Spectacular yellow ball	Grey
<i>Aloe cryptopoda</i>	•	•	•	•	•	50-75cm, single rosette	June/July	Yellow to red	Dark green
<i>Aloe chabaudii</i>	•	•	•	•	•	50cm rosette, will form clumps	June/July	Pink to red, quite lax	Greyish, some indistinct spotting
<i>Aloe cooperi</i>	•	•	•		•	Grass-like rosettes, clumping	June/July	Orange	Green with white spotting
<i>Aloe deltoideodonta</i>	•	•	•	•	•	15cm rosette, forms clumps	Sporadic through year	Pink	Blue-grey or spotted
<i>Aloe deserti</i>	•	•	•	•	•	20cm rosette, forms clumps	Sporadic through year	Pink	Dark green with white spotting
<i>Aloe dichotoma</i>				•	•	8m, single stem	June/July	Yellow	Grey glaucous
<i>Aloe dorotheae</i>	•	•	•	•	•	50cm rosette, will form clumps	May/June	Pink	Red in winter
<i>Aloe elgonica</i>	•	•	•	•	•	10-15cm rosette, forms clumps	June/July	Orange	Glossy green with white spotting
<i>Aloe esculenta</i>	•		•	•	•	50-75cm, single rosette	June/July	White to pink	Grey spotted
<i>Aloe excelsa</i>	•		•	•	•	4m, single stem	June/July	Orange	Green leaves
<i>Aloe ferox</i>	•	•	•	•	•	4m, single stem	Early winter – June/July	Pink, Orange, red, yellow or white candelabra	Grey with red edge
<i>Aloe fragilis</i>	•	•	•	•	•	10cm, spotted rosette that form clumps, ideal filler	July	Insignificant pink flowers	Spotty green and white leaves
<i>Aloe hardyi</i>	•	•	•	•	•	50cm heads forming clumps, similar to <i>Aloe arborescens</i> but without stems	May/June	Long pink dense flower	Very soft light green leaves
<i>Aloe hemmingii</i>	•	•	•	•	•	Small single rosette 30-50cm	April/May	Insignificant pink lax flowers	White spotted shiny leaves against olive green background

Name	Climate					Size / Form	Flower Season	Flower Colour	Leaf colour
	DT	WT	S	A	W				
<i>Aloe hemmingii</i>	•	•	•	•	•	Small single rosette 30-50cm	April/May	Insignificant pink lax flowers	White spotted shiny leaves against olive green background
<i>Aloe ibitiensis</i>	•	•	•	•	•	50cm rosette, will form clumps	March/April	Pink with whitish bracts	Lime green
<i>Aloe jucunda</i>	•	•	•	•	•	10-20cm plant filler	June/July	Pinkish	Olive green with white spots
<i>Aloe juvenna</i>	•		•	•	•	Plant filler	June/July	Pinkish	Yellowish green, small stalks
<i>Aloe kedongensis</i>	•	•	•	•	•	2-3m, shrubby plant	April/May	Red stalks	Dry green
<i>Aloe macroclada</i>	•	•	•	•	•	50-75cm single rosette, pale yellow margins	April/May	1m long yellow to brown single spike	Light green leaves with soft yellowish thorns
<i>Aloe maculata</i>	•	•	•	•	•	50cm rosette – may form clumps. Weed-like in some districts	June/July	Salmon pink	Green spotted
<i>Aloe marlothii</i>	•	•	•	•	•	4m, single stem	Early winter – June/July	Orange to red	Grey with marked black thorns
<i>Aloe mawii</i>	•	•	•		•	2-3m, shrubby plant	June/July	Horizontal 45cm red stalks	Olive green
<i>Aloe munchii</i>	•	•	•	•	•	Tall to 3m, single stem, can shrub up, ideal feature plant	July/August	Large pagoda-like orange flower	Thin leaved grey greenish
<i>Aloe mzimbana</i>	•	•	•	•	•	75-100cm, rosette that can offset with age	July	Salmon pink half capitata flowers	Dark green leaves
<i>Aloe ortholopha</i>	•	•	•	•	•	Single headed, 50-75cm with thick grey leaves	July	Bright red flowers on horizontal flower stalk	Grey with white margins
<i>Aloe parvula</i>	•		•		•	10cm, rosette will form bunches	Dec/Jan	Pinky white	Purple with white margins
<i>Aloe peglerae</i>	•		•	•	•	30-50cm, single stem rosette very thorny	July	Reddish dense 50cm flower stalk	Deep grey, leaves close up in winter
<i>Aloe petricola</i>	•	•	•	•	•	50-75cm, single rosette	June/July	White/red or yellow red	Grey
<i>Aloe pluridens</i>	•	•	•	•	•	Single stemmed, tall to 3m with picturesque recurving leaves	July	Reddish pink stalk	Olive green leaves, with big white teeth
<i>Aloe polyphylla</i>					•	50-75cm, single rosette	September/October	Pinkish	Leaves arranged in spiral rows, bright green
<i>Aloe reitzii</i>	•	•	•	•	•	50-75cm, single rosette	February	White to red hot poker	Greyish, with white thorns
<i>Aloe sinkatana</i>	•	•	•	•	•	50cm rosette, will form clumps	June/July	Orange to pink	Greyish green with pinkish spots
<i>Aloe speciosa</i>	•	•	•	•	•	Single stemmed usually, but can clump as a shrub to 2m, wide rosette, soft margins	July	Beautiful pink and white with very thick green flower stalk	Greenish pink leaves with red margin
<i>Aloe striata</i>	•		•	•	•	50-75cm, single rosette	June/July	Orange to pinkish	Pale green leaves with pink margins, no thorns
<i>Aloe tauri</i>	•		•	•	•	1m, single rosette	June/July	Yellow to white	Red in winter
<i>Aloe thraskii</i>	•	•	•	•	•	4m, single stem	May/June	Golden yellow	Recurved green leaves
<i>Aloe vanbalenii</i>	•	•	•	•	•	75cm rosette, will form clumps	June/July	Yellow to pink	Light green tending to red in winter sun
<i>Aloe vaombe</i>	•	•	•		•	50-100cm rosette, arborescent to 3m	June/July	Red	Deep red in strong light
<i>Aloe vacillans</i>	•	•	•	•	•	50cm rosette, clumping	June/July	Yellow	Grey
<i>Aloe wickensii</i>	•	•	•	•	•	50-75cm, single rosette	June/July	Yellow to red	Dark Green
<i>Aloe xspinosissima</i>	•		•	•	•	1m, clumping	June/July	Red or yellow stalks	Yellowish green
<i>Aloe yavellana</i>	•	•	•	•	•	50-75cm, multi headed shrub with soft margins rosette	April/May	Bright red with yellow edges in mini-pyramid shape	Lime green leaves with red tinge in sun
<i>Aloe zebrina</i>	•	•	•	•	•	70cm rosette, forms clump	June/July	Pink	Olive green, white spots
