

VERTICAL NEST-BOX DESIGN

MATERIALS:

- 20mm Exterior Grade Plywood;
- 20mm x 20mm Hardwood;
- 25mm x 25mm x 2mm Weldmesh;
- 2 - 75mm Type 17 x 14g Galv. Batten Screws;
- 36 - 8g x 50mm Wood Screws (Exterior);
- Low Toxicity Exterior Adhesive.

NOTE:

Do NOT apply adhesive to roof joints; Rasp edges of Grip Rails to increase grip; Remove sharp edges from Weldmesh; Exterior Grade Acrylic Paint (of a suitable camouflage colour) will extend the life of the nest box. Do NOT paint the interior or around the entry of the box, as some species like to chew.
